FC GLOSS - 516

SPECIFICATIONS

USAGE:

FC GLOSS - 516 is an industrial strength biodegradable wax for use on all vehicle surfaces. FC GLOSS-516 provides water resistant coating that works on painted surfaces, glass, chrome, rubber, plastic and metal surfaces. This water resistant coating brings out the shine and luster of dull paint while leaving the surface with a clear thin protective coating. FC GLOSS-516 can be used as a stand alone wax or added to all the Hydrus transportation detergents. When using as a wash/wax additive add one quart per 55-gallons of detergent. FC GLOSS-516 beads easily and rapidly for a beautiful shine and a fast dry time. FC GLOSS-516 provides protection to all vehicle surfaces with its protective barrier. Slows corrosion and helps minimize the corrosive effect of highway salts in northern winter driving.

COMPETITIVE PRICE

- 1. Leaves a clean shiny gloss on vehicles. Use as a wash/wax in Hydrus Transportation with one quart per 55-gallon detergent. A few pennies per gallon for both applications. 36% Actives.*
- 2. Economical per gallon cost. As a wax dilute 2000 to 1 as applied.*

SUPERIOR DETERGENT

- 1. Designed for pressure washers and car/truck wash installations.*
- 2. Works well in hard or soft water. Designed to work well in cold or hot water.*
- 3. Provides luster and shine, improves rinsing and shortens drying time.*

- pH 5%. Solution = 7*
 - Specific Gravity = .95*
 - Insolubles = None*
 - Flash Point = 105°F.*
 - VOC = 215-Grams per liter*
 - Ozone & Smog = Does not carry ingredients that attack the earths ozone, or contribute to smog.*
 - Product Support = Backed by Hydrus chemist with years of proven experience. Product support is guaranteed.*
 - **NON-HAZARDOUS NO CORROSIVE LABEL***
 - **ALL HYDRUS DETERGENTS ARE REGISTERED WITH EMERGENCY SPILL, FIRE AND EXPOSURE PLANS.***
- Freezability = Freeze/thaw stable*
 - Active Ingredients = 36% Active*
 - Hard Water = Softens and is soluble*
 - USDA Letter of Guaranty = NA*
 - Shelf Life = 2 years in a sealed container*
